Gabriel de Souza

Developer - Java, Typescript, NodeJs, PHP & Python.
São Leopoldo, Rio Grande do Sul, Brazil

Summary

I'm a recent Analysis and Systems Development graduate with a passion to learn. Highly motivated and eager to contribute my skills in a growth-oriented environment.

Multi-Platform Expertise: Adept in developing for mobile, web and desktop applications.

Programming Languages: Proficient in TypeScript, PHP, Java and Python to create robust solutions across platforms.

Framework Efficiency: Angular and NestJS to streamline full-stack application development.

Design Patterns: Observer and Singleton.

Agile: Scrum and Kanban methodologies for organized and timely project delivery.

Strong Communication & Teamwork: Collaborative and committed to building innovative solutions.

Continuous Learner: Currently exploring NestJS for advanced server-side development and Material UI/UX for build applications.

Experience

Instituto Federal de Educação Ciência e Tecnologia Farroupilha
(IFFAR)
Bolsista
April 2022 - March 2023 (1 year)
Rio Grande do Sul, Brasil

Education

Instituto Federal de Educação, Ciência e Tecnologia Farroupilha
(IFFar) - Campus São Vicente do Sul
Tecnólogo em Análise e Desenvolvimento de Sistemas, Ciência da
Computação · (February 2021 - December 2023)
